

HILLPRO LLC
PURCHASE ORDER TERMS AND CONDITIONS

Form 7.4.2 Revision Original
Date 09/23/2015

This document defines purchase order requirements that may apply to your purchase order. Please refer to your purchase order for specific requirements that apply to your PO. All applicable drawings, specifications, test procedures, and certifications listed in the requirements applicable to your PO must be complied with in order to provide product that meets our PO requirements.

The latest revision of specifications and drawings apply to this order unless a specific revision is called out on your PO. Any deviation or waivers from the requirements specified on your PO must have written approval from HILLPRO purchasing prior to shipping the product.

Suppliers and subcontractors shall allow right of access to facilities and applicable records to HILLPRO personnel, our customers, government or other regulatory authorities for the item(s) offered on this PO.

Suppliers and subcontractors shall notify HILLPRO of nonconforming product, and obtain approval for nonconforming product disposition. Notify HILLPRO of changes in product or process definition, changes of suppliers, change of manufacturing facility location, and obtain approval from HILLPRO.

None of the terms and conditions referenced on the PO may be added to, modified, superseded, or otherwise altered in any way except by written permission of the HILLPRO purchasing agent.

It is the responsibility of the supplier to ensure that appropriate HILLPRO requirements are flowed down through all sub-tier suppliers.

This order may contain articles that are controlled by the International Traffic in Arms Regulations (ITAR) ITAR articles are for shipment only within the U.S. and for access and use by U.S. persons only. They may not be exported, transferred, transshipped in either their original form or after being incorporated into other end-items, without the written approval of the U.S. Department of State.

If this is a rated order the DPAS rating will be listed on your PO, and is certified for national defense, emergency preparedness, and emergency program use, and the contractor shall follow all of the requirements of the Defense Priorities and Allocations System regulation (15 CFR 700)

Conflict Materials Reporting:

In July 2010, President Barack Obama signed into law the Wall Street Reform and Consumer Protection Act, also known as the Dodd-Frank Act. This act imposes new regulations regarding "Conflict Minerals". On August 22, 2012, the Securities and Exchange Commission (SEC), adopted final rules implementing the "conflict minerals" disclosure requirements in Section 1502 of the Dodd-Frank Act, passed by Congress in 2010 (see the rules at: <http://www.sec.gov/rules/final/2012/34-67716.pdf>).

This rule requires public companies such as to acknowledge if any conflict minerals (defined as tantalum, tin, gold or tungsten) are in their products and if any of these minerals originated in the Democratic Republic of the Congo (DRC) or surrounding countries. HILLPRO requires all suppliers to provide a "Conflict Minerals Reporting" declaration using the format located at <http://www.conflictreesmelter.org/documents/EICCGeSIDDtemplate.xlsx> Or other format which provides all applicable required information disclosing if any conflict minerals are used in products delivered to HILLPRO once each year prior to May 15th, 2014. You are also requested to flow down this alert to all levels of your supply chain and ensure that your company becomes familiar with the conflict minerals rules. If HILLPRO does not receive the required report from your company we will assume that no "Conflict Materials" were provided to HILLPRO.

NOTE: The requirements listed above this line apply to all purchase orders. Requirements below this line only apply if they are referenced on the face of your PO.
